

**International Conference on
Computational Intelligence and Data Science
(ICCIDS 2019)
6th-07th September 2019**

PUBLICATION: All the accepted papers will be published in Procedia Computer Science Journal, Elsevier.

ICCIDS2019:

The International Conference on Computational Intelligence and Data Science (ICCIDS2019) provides an International forum for presentation of original research findings, as well as exchange and dissemination of innovative, practical development experiences in different fields of engineering. The conference draws researchers and application developers from a wide range of data mining and computational Intelligence related areas along with their algorithms and applications of current issues of almost all branches of Engineering and Technology.

Awareness of Data Science and its application is becoming popular among the general population. Parallel offers of hope add woes to the researchers of Data Science due to the potential limitations experienced in the real-time. This conference aimed to expand its coverage in the areas of Computational Intelligence and Data Science, where expert talks, young researchers presentations will be placed in every session of the meeting will be inspired and keep up your enthusiasm.

VENUE: The NorthCap University, Gurugram, India

JOURNAL INDEXING: SCOPUS

PUBLICATION POLICIES:

Kindly visit the conference website (<http://iccids2019.ncuindia.edu/Paper-Submission>) for details.

**Session Title: Emerging Trends in Image Processing and Biometric
contact no. of session chair(s)/ session Co chair(s)**

Name(s): Dr. CHANDER KANT

Designation: Associate Professor,

Affiliation: Deptt. Of Computer Science & Applications
K.U. Kurukshetra.

Email: ckverma@rediffmail.com

Session-committee members: Dr. Ajay Jangra,
Asst. Professor, Deptt. Of Computer Science
UIET, K.U. Kurukshetra

Aims and Objective: Image Processing

Digital image processing is one of the challenging fields, deals with making certain improvements in a digital image based on some predefined criteria. Prime objective of restoration is to build or reconstruct an image that has been degraded based on some prior knowledge regarding the phenomena of degradation.

Objective of session will be

1. Image transformation used in digital image processing
2. Image enhancement techniques used in digital image processing
3. Image restoration techniques and methods used in digital image processing
4. Image compression and Segmentation used in digital image processing

Topics of Interest:

Image Segmentation/Classification
Multi resolution techniques
3D/4D Image Reconstruction
Pattern recognition
Computer Vision
Biomedical Imaging
Scientific Imaging
Bioinformatics Methods
Biological Experimental Data Modeling
Biometric Functionality
Multimodal Biometric System
Adaptive Biometric Systems
Applications of Biometrics
Biometric Authentication
Cancelable Biometrics
Soft Biometrics
Biometric Identification
Biometric Passport
Government Databases
Hand Geometry
Handwritten Biometric Recognition
International Identity Federation
Iris Recognition
Keystroke Dynamics
Private Biometrics
Retinal Scan
Signature Recognition
Speaker Recognition
Vein Matching
Voice Analysis
Biometric Sensors
